

CF-NGB2-SLS06012-1X4

Product Overview

The CF-NGB2-SLS06012-1X4 is designed to work within the NGB2 MDU enclosure basement box and in the UGPN's CFNB-PRI-104-10SN, CFNB-PRI-104-11SN, CFNB-PRI-104-13SN. This splice tray has 2 x 1:4 splitters installed on them. The tray is designed for quick installation into the raceway for speed and ease of construction of the closure or expansion of the network footprint. The tray can be labelled using a blue sticker to highlight the type of network that is installed within the splice tray. *Note blue sticker will need adding in the field.

Features

- 2 x 1:4 optical splitters
- Fibre type is G657.A1
- Can be installed into either the NGB2 box or the UGPN closures.
