10014446 - FTTP - OTP-AN Pole / Wall Mount Primary DP
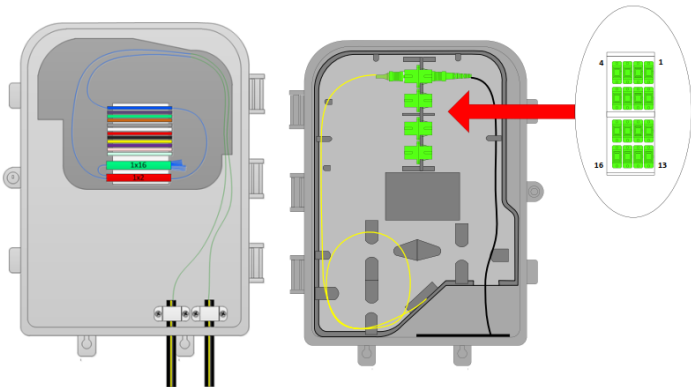

Product Overview

Hexatronic's outdoor wall-mount optical distribution boxes offer the most flexible patch, splice and splitter solution for all FTTx networks.

Suited for pole or wall mounting, the 'all-in-one' flexible distribution box is the ideal fit for today's FTTx networks.

All passive optical network components are housed in a single enclosure that offers the highest level of cable management. Each enclosure comes with pre-terminated optical pigtails included.

Features

- Two multifibre cable entry clamp
- Hinged patch tray
- Dedicated splitter cassette
- Splitter module housing
- Fanout module housing

Specifications

Secondary - 1:16 PLC Splitter
