Fusion Splicers

Cladding Alignment

M7 FUSION SPLICER

M7, an active clad-alignment splicer with ultra-portable design, is the most efficient fusion splicer in the market.

This small but accurate fusion splicer inherits many remarkable functionalities from sister products. M7's 4.3 inch high-resolution color LCD touch screen with user-friendly intuitive GUI (Graphic User Interface) offers large and clear fibre images to users.

Moreover, the adjustable strap hanger make users to customize M7 for their working condition.

FEATURES

- Changeable holder for multi-functional splicing
- Electrode with long life
- 2 Bright LEDs for dark environment
- Ceramic Clamp - Improved durability
- Detachable heat oven for SOC
- Adjustable Strap Hanger
- 4.3" Touch Screen with Smart GUI The Highest 400X magnification, Double Tap to Zoom in & out

VIEW 12R FUSION SPLICER

View 12R, a ribbon splicer with the fully motorized clamp alignment system, is the most powerful and state-of-the-art ribbon splicer in the market.

Its advanced automatic clamp alignment system offers an accurate and dependable ribbon fibre splicing up to 12 fibres with double-tapping (Zoom in & out) and scrolling to the world's highest magnification of 250x for ribbon splicer.

The View 12R provides maximum work efficiency through the fast splicing & heating time, ultra-high battery capacity of 220 splice / heat cycles, and universal holder both for 250µm & 900µm single fibre.

The View 12R ensures the most reliable work experiences to our valuable customers.

FEATURES

- Motorized Clamp Alignment System
- The Highest Magnification and Resolution
- Double Tapping (Zoom in & out)
- The Fastest Working Time
- 5" Color LCD Touch Screen
- Ultra-High Capacity Battery
- Universal Single Fibre Holder
- Supplied with a new thermal stripper

Fusion Splicers

Core Alignment

VIEW 6S - OUTSTANDING PERFORMANCE
