

Subscriber Underground Access Chamber – 285mm

A universal modular chamber for housing subscriber terminations at customer demarcations.

Features

- Narrow footprint for narrow trenching.
- 285mm Depth with internal rodding/radius bend.
- Self-draining anti-slip surface, Grade C tread depth.
- Load bearing, exceeds Grade C.
- Snap close lid, with provision for security screw fixing.
- Can be embossed, for logo or wording.

Application

The Underground Chamber can be used as a connection point for Microduct Links. Minimising the effort and investment required to convert a network from homes passed to Homes Connected.
