

Customer Termination Box 3 (CTB3)

Enables blown fiber and fixed cable connection for FTTX networks

Features

- 30mm bend radius
- Input cable range 3-7mm
- Output cable range 3-7mm
- Accepts ABF, OH Drop, UG Drop
- Multi-access locations
- Exit through the base or rear of the enclosure
- Tamper screw option
- Up to 8 fiber Splice and 4 fiber Patch
- UV Stabilized
- Various colour options

Application

- Future proof FTTP deployments
- Premise connection device (PCD)
- FTTA
- MDU
- Demarcation point
- Slack storage

Design

The Hexatronic CTB (CSP) enables Blown Fibre and fixed cable access to the customer premises. Compatible with all standard deployment methods including Blown Fibre Drop Tube and fixed cable from overhead, external duct or internal duct.

The unique two layer management system provides separate work areas for both Network and Access. Each space can accommodate Splice, Patch and Storage.

To ensure the product is presented well on customer properties, this Customer Termination Box interfaces directly with our range of standard capping and hardware.

Product Information

Cable Diameter: 3-8mm

Splice capacity: 8

Patch capacity: 2x SC or 4x LC

Material: PP, ABS or HIPS

Dimensions: 140 x 190 x 45 mm

Various colour options available

Technical Information

Product Color

Grey, black and brown
