Customer Termination Box (CTB)

Compact external enclosure for FTTH customer connections

Features

- Compact / Discrete
- Cost Effective
- Multi-functional
- Impact Resistant
- Splice, Patch or Splice and Patch

Application

These boxes are designed for the demarcation point on the exterior of a customer premises in FTTH networks.

Design

The CTB is a universal external enclosure that has been developed for discrete and functional FTTP customer deployments. With the ability to accommodate Splice Only or Splice and Patch, it's simple to install future proof infrastructure.
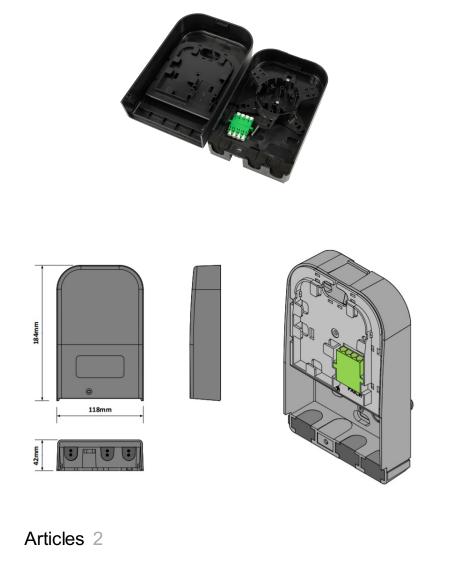

The Box is a High Quality ABS housing that can supplied in many colours such as White, Black, Grey and Brown. Also available in custom branding.

Internally the Box comes equipped with a Fibre storage Module and a Customer patch plate that houses the Fibre optic Patch.
