Hexatronic Large Dome Closure

Large IP68 Dome Closure för skarvning upp till 96 användare

Funktioner

- Connectivity for up to 96 x LC/APC connections
- LHDC-AA: 288 (576) Splice Capacity
- LHDC-AB: 672 (1344) Splice Capacity
- IP68: watertight base and dome with clamp and O-ring system
- Easy access tear-out ports seals
- Mechanical compression port seals. No heat shrink required.
- Strong and lightweight, single-piece raceway construction.
- Quick and easy installation
- Central mid-span storage.
- Versatile: customizable according to your needs.
- Various glands to fit all types/sizes of cables and BFT.
- Safe area for midspan storage.

- Mandrel for switching direction of entry fibres.
- Quick and easy installation of extra splice tray.
- Various accessories for holding splitters/ connectors assemblies/ pigtails.

Applicering

The Heatronic Dome Closures are suitable for all jointing and branching applications and can also be utilised as splitter locations and customer connection points.

Produktinformation

- Ports: 5
- Cable Diameter: 5-21mm
- Splice Capacity: 672 (1344)

Naming Convention

- SHDC-AA: 144f (288f)
- SHDC-AB: 288f (576f)
- LHDC-AA: 288f (576f)
- LHDC-AB: 672f (1344f)

The smaller size domes are denoted by "SHDC," which stands for "Slim Hexatronic Dome Closure." These closures are available in two sizes, SHDC-AA and SHDC-AB, with splice capacities of 144f (288f) and 288f (576f) respectively. These smaller dome closures are ideal for applications where space is limited, but high splice capacity is still required.

The larger dome closures are denoted by "LHDC," which stands for "Large Hexatronic Dome Closure." These closures are also available in two sizes, LHDC-AA and LHDC-AB, with splice capacities of 288f (576f) and 672f (1344f) respectively. These larger dome closures are perfect for applications where a higher splice capacity is needed, such as in larger network builds or installations.
