

Strain Relief

Designed for securing small diameter cables into micro ducts preventing damage caused by excessive bending or pulling.

Features

- Fits into 8/5, 8/4, 7/3.5 & 5/3.5 duct
- Durable TPU rubber material
- Designed and manufactured in UK
- Flexible
- Bold colours
- Effortless installation

Application

Compatible with:

- 2F, 12F, 24F Stingray
- 2F and 12F Raptor

It is also suitable for use with non-Hexatronic cable sizes ranging from 1.1mm - 2.5mm

For ducts with internal diameters:

- 5mm
- 4mm
- 3.5mm

Purple strain relief allows 3T tubing to be used within the duct

Design

Developed to offer a low-cost Strain Relief solution for small diameter cables exiting micros ducts in cabinets, wall boxes and similar scenarios.

The Strain Reliefs are available in bold colours for quick identification when working with a range of cable and duct diameters.

Technical Details

Tensile test results—N

		Fibre type				
		Stingray 2-4f (1.1mm)	Stingray 12F (1.4mm)	Stingray 24f (1.6mm)	Raptor 2f (2mm)	Raptor 12f (2.5mm)
Duct type	8/5	10.1	20.5	19.9	15.7	22.8
	8/4	7	15.9	20.1	20.6	*
	7/3.5	10.3	23.1	14.6	*	*
	7/3.5	10.3	12	15.7	*	*
	5/3.5	13.4	31.9	37.8	*	*
	5/3.5	13.4	12.2	20.4	*	*
	5/3.5	10	23.4	37.8	*	*

*Other gas blocks and strain reliefs are available
Colours reference the compatible strain relief options
