

# Duct Rods & Accessories

**BT-compliant Duct Rods with quick-release Ferret Lock Coupling for secure, efficient cable laying**

---

## Features

- Purpose-built for cable laying applications in ducts, both above and below ground.
- Crafted from durable PVC and engineered to meet BT specifications.
- Premium Ferret Lock Coupling ensures secure joints and quick release for efficient operations.
- Lightweight yellow PVC rods designed for versatility in various duct-based tasks.
- Quick-release spring-loaded brass 'Ferret' mechanism for thread security.
- Manufactured to British Telecom standards, guaranteeing consistent quality and performance.
- Compatibility with a range of fittings for customization to your specific needs.
- Reliable, secure, and efficient for cable laying in compliance with stringent industry standards.

## Application

External underground, overhead, duct, cable, chamber, PIA, Physical Infrastructure Access

## Design

Our Duct Rods are purpose-built for cable laying applications within ducts, whether above or below ground. Crafted from robust PVC and precision-engineered to meet BT specifications, these rods offer a secure and versatile solution for a range of tasks.

Each Duct Rod is equipped with a premium Ferret Lock Coupling, providing robust joint security while allowing for quick release. This innovative coupling mechanism ensures that your projects progress smoothly, maintaining the highest safety standards.

Our lightweight yellow PVC rods are the preferred choice for cable laying, designed to excel in various duct-based applications. They feature a quick-release spring-loaded brass 'Ferret' mechanism, locking the thread securely for peace of mind.

Manufactured to British Telecom standards, Bailey Duct Rods deliver consistent quality and performance. With a range of compatible fittings available, these rods are adaptable to suit your specific needs.

Fittings available

- Bellmouth Split 1 - OD 76.2 - I.D 71.4
- Bellmouth Split 1A
- Bellmouth Split 2 - OD 84.1 - I.D 79.4
- BT Adaptor Rod 1A - To join Ferret female to duct rod No. 3 male
- BT Adaptor Rod 2A - To join Ferret female to duct rod No. 3 male
- BT Adaptor Rod 3A - To join Ferret female to duct rod No. 3 male
- BT Adaptor Rod 5 - To join Lockfast female to ferret female, including spring
- BT Adaptor Rod 7 - To join 15/16" Ferret male to Ferret female
- BT Attachment Rod 1A - Leader or follower for duct rod 5
- BT Attachment Rod 2A - Leader or follower for duct rod 5
- BT Attachment Rod 3A - Leader or follower for duct rod 3
- BT Attachment Rod 4A - Leader or follower to 1/2" Ferret rod
- BT Coupling Rod Duct 3 Female - Can be used for joining duct rods 3
- BT Coupling Rod Duct 3 Male - Can be used for joining duct rods 3
- BT Coupling Rod Duct 3 Reel - Can be used for joining duct rods No. 3
- BT Coupling Rod Duct 3 male swivel - Can be used for joining duct rods No. 3
- Coupling Piece No1 Lockfast
- Coupling Piece No2 Lockfast
- Rigging head 1A - Can be used for threading cables inside hollow poles by screwing onto duct rod 2 and pushing a rope with a weight attached.

## Product Information

BT compliant
