

Fiber Inspection Probe 435B Wireless

Fully automated WiFi inspection tool with embedded analysis

Features

- 100% automated, one-step inspection process
- Completely wireless, self-powered unit
- Screenless operation enabled by pass/fail LED indicator
- On-board connector endface analysis (IEC, IPC or custom standards)
- Feature-rich ConnectorMax2 mobile application compatible with Android™ and iOS devices
- Full reporting capabilities on mobile devices
- All-day battery life that will never let you down
- Compatible with automated multifiber connector inspection

Application

FTTH, FTTA, FTTx

Design

By combining unmatched ease of use and WiFi connectivity along with the flexibility and portability of Android™ and iOS smart devices, EXFO is removing the last roadblocks in connector certification and making testing simple and headache-free. With the FIP-435B, there is nothing restricting your field crews from following fiber-testing best practices and eradicating faulty connector issues impacting the performance of your network.

Using the ConnectorMax2 Mobile application, you can view fibers directly or capture and analyze the results.

Bring it with you anywhere

Product Information

No wires. No heavy platform. No cumbersome power pack or adaptors. Bring it with you anywhere!
