

3-Hole Fiber Optic Stripper

Tool for fiber optic stripping

Features

- Minimum outer jacket diameter: 1.6 mm
- Maximum outer jacket diameter: 3 mm
- Ensures clean, smooth strips with every use
- Notches require no adjustment & will not scratch or nick the fiber

Design

Three-hole design efficiently removes 1.6 mm to 3 mm fiber jackets & buffers down to the 125 micron bare fiber in one compact tool.

All stripping surfaces are quality manufactured to precise tolerances to ensure clean, smooth strips with every use.

Compliant thermoplastic elastomer handle grips are ergonomically designed to fit comfortably in either

hand, reducing the risk of injury from the repetitive stripping function.

Product Information

1st Hole Application - 1.6 - 3 mm Jacket → 600 - 900 μ m Tight Buffer

2nd Hole Application - 900 μ m Tight Buffer → 250 μ m Buffer Coating

3rd Hole Application - 250 μ m Buffer Coating → 125 μ m Bare Fiber
