

LM7010E Electric Compressor

Fibre Optic Blowing Compressor (Electric) 240V

Features

- Designed for blowing fibre
- Consistent airflow (no undulation)
- Low maintenance design
- Lightweight for easy movement to site (24.5kg)
- Unique connecting rod for perfect balance
- V - Configuration oil-less compressor pump
- Oil free air production
- Tankless design
- Cast aluminium construction
- Unique connecting rod system for perfect balance
- Heat-treated components for longer life
- Stainless steel valves

- Air cooling radiator with pressure stabilising valve
- Condensate filter
- Auto discharge idling valve
- Heavy-duty flexible reinforced delivery pipe
- Full wrap-around frame for protection and portability
- Supplied with 'Instantair' coupler

Design

Engine: 3 HP / 3000 rpm SUBARU Petrol

Air Flow Rate: 9.5 CFM (270 ltr/min)

Maximum Pressure: 145 psi (10 bar)

Noise Level: 80 dB LpA / 94 dB LwA

Fuel Tank Capacity: 3.5 Litre

Weight: 25 kg
