

# LM7010E Electric Compressor

**Fibre Optic Blowing Compressor (Electric) 110V**

---

## Features

- Designed for blowing fibre
- Consistent airflow (no undulation)
- Low maintenance design
- Lightweight for easy movement to site (24.5kg)
- Unique connecting rod for perfect balance
- V - Configuration oil-less compressor pump
- Oil free air production
- Tankless design
- Cast aluminium construction
- Unique connecting rod system for perfect balance
- Heat-treated components for longer life
- Stainless steel valves

- Air cooling radiator with pressure stabilising valve
- Condensate filter
- Auto discharge idling valve
- Heavy-duty flexible reinforced delivery pipe
- Full wrap-around frame for protection and portability
- Supplied with 'Instantair' coupler

## Design

**Engine:** 3 HP / 3000 rpm SUBARU Petrol

**Air Flow Rate:** 9.5 CFM (270 ltr/min)

**Maximum Pressure:** 145 psi (10 bar)

**Noise Level:** 80 dB LpA / 94 dB LwA

**Fuel Tank Capacity:** 3.5 Litre

**Weight:** 25 kg
