

MSAT® 16 TOOL

Easily size and access fibres in loose tube cables

Features

- Rugged polymer construction is lightweight & durable.
- Convenient built-in sizing channels quickly determine proper setting for a wide variety of loose tube cables.
- 16 unique diameter settings accommodate loose tubes ranging from 1 mm to 3 mm.

Application

Introducing the MSAT® 16, an exciting new solution designed to easily size and access fibres in loose tube cables ranging from 1 to 3 mm diameters in mid-span applications.

Design

Safe, compact & ergonomic design fits comfortably in hand for easy operation without risk of injury.

Patent-pending design features a self aligning, easy-to-load buffer tube channel that supports & guides the tube through precision shaving operation.

Built-in sizing channels determine proper setting for loose tube cables.

Precise self-aligning channel supports and guides tube while shaving.

Spring-loaded design eliminates need to lock or clamp tool while in use.

Fixed stainless steel blades require no adjustments and replace easily.
