

VRK20 Armadilo Compressor

Fiber Optic Portable Compressor

Features

- Compact design, extremely maneuverable and easy access for maintenance. All filters readily accessible.
- All filters (except air filter) are spin-on type, for easier maintenance.
- All moving parts are inaccessible, according to the most stringent
- Intuitive starter.
- Easy to transport and to load.
- Lifting eye for crane use
- Cooling fan on the engine axle.
- Manometer.
- Thermostat with safety arrest at high temperatures.
- Integrated hours counter.
- Muffler under the machine, less noise and avoids risks of accidental burns.

Cooling ventilator shielded and inaccessible.

Design

Pneumatic control system, ROTAIR production, to automatically adjust engine revs, depending on the air to be delivered.

This system is highly reliable and ensures fuel consumption savings.

Encapsulated separator tank with double separation-internal filter and external spin-on: oil carry over 1-3 PPM. Air/ oil separator filter, highly oversized, to guarantee an excellent air/ oil separation.

Compressor oil filter and engine oil filter are separated.

Single-stage oversized air filter for compressor part, to guarantee good filtering of the air intaken by airend.

Product Information

Max operation pressure: 15 bar - 218 psi

Minimum working pressure: 5 bar - 80 psi

Fuel tank capacity: 15 lt / 3.3 UK gal

Max engine power @3600 RPM: 16.5 kW - 22.5 HP
