

Splice Tray

Mobile splice-tray workstation, suitable in many environments

Features

- Magnetic fixing system
- Compartment for cleaning fluids
- Splice protection sleeve tray
- Lightweight, mobile tray of just 1.25kg of weight
- Optional tripod, ladder bracket and pole clamp to suit your environment

Application

FTTHApplications

Design

Fix the splicer and cleaver with the supplied screws or double-sided stretches. Thanks to the magnets, your tools are also safe.

Optimize your time and reduce the risk of damaging equipment: work efficaciously and maximize your profits.

Product Information

The splice tray set allows users the ability to fix their splicing machine, cleaver and all the tools you need for FTTH applications. It can be worn, installed on a pole, on a ladder or on a tripod to maximize efficiency.
