

# Hexatronic Duct Preparation Tool Kit

The ultimate collection of essential tools designed specifically for preparing ducts with precision and efficiency.

---

## Features

- Comprehensive kit containing all the essential fibre optic and telecom installation tools.
- Durable engineers tool bag measuring 35cm x 25cm x 48cm, providing ample space for tools and accessories.
- Large, medium, and small duct cutters for different diameters of ducts.
- Thin and thick wall scoring tools, deburring tool, Insul cable sheath knife, and ring slit tools for efficient cable stripping and slitting.
- Cable cutters for precise cable length cutting.
- Screwdrivers (large and small), long nose pliers, and a duct shaper for various installation tasks.
- Ultra Grime Multi-Use Wipes for easy cleaning of tools and workspace.

- Neat and organized tool bag for easy access to tools and convenient transport.

## Design

Invest in the Hexatronic Tool Kit for a reliable and efficient fibre optic and telecom installation experience. With all the essential tools in one convenient bag, you can save time and energy while ensuring a professional finish every time.

The kit comes in a durable, engineers tool bag measuring 35cm x 25cm x 48cm in sleek black. The bag is designed to keep your tools organized and easily accessible, making it the perfect choice for professionals on the go.

The kit includes large, medium, and small duct cutters for different diameters of ducts. The thin and thick wall scoring tools and deburring tools help you cut and shape ducts with precision and ease.

The Insul cable sheath knife and ring slit tools AST-200, CST-1900, and CST-4000 help you strip and slit cables efficiently, and the cable cutters allow you to cut cables to the desired length.
