

Ratchet Pole Banding Tool

Universal ratchet used to securely attach the Banding to telegraph poles.

Features

- Suitable for the attachment of a Universal Pole Bracket (UPB)
- Designed to securely attach the Stainless Steel Banding to poles in situations where drilling is prohibited.

Application

PIA Hardware, Physical Infrastructure Access, Pole Hardware, Telegraph, Wooden and Hollow poles

Design

Introducing our Ratchet Pole Banding Tool, the perfect solution for securely attaching Stainless Steel Banding to poles in drill-free environments. This versatile tool easily pairs with our Stainless Steel Banding and Buckle system, whilst also being compatible with our Universal Pole Brackets (UPB).
