

Ultra-Lightweight Preparation Tool Kit

All the required tools for Hexatronic's Ultra Light-Weight cable

Features

- Precision preparation
- Robust, High Alloy Carbon Steel & Tungsten Carbide components
- Easy blade replacement
- Robust case
- Convenient - custom storage tooling
- Foam-lined: full protection of tools

Product Information

Being prepared means being equipped with efficient supplies you will require for an installation. This handy Tool Kit contains all the required tools for accessing and preparing Hexatronic's Ultra Light-Weight cable. Supplied within a hardwearing, foam-filled protective case to eliminate any possibility of damage when the installation tools are not in use.

Adopting best practices and best usage ensures the ULW preparation tools will provide a long and trouble-free service.
