

Pigtails – Multimode

OM4

Features

- High performance 50 µm OM4 fibers
- SC, LC or ST connectors
- Halogen-free flame-retardant material (HFFR)

Application

The HTSR 394+ series of multimode pigtails is designed to meet the standards mainly used in datacenter and general purpose local area network applications. The precision polished connectors ensures low insertion loss and lowest back reflection.

Design

The HTSR 394+ series has an extended operating temperature range, -30°C to +70°C. This makes them very stable over time in various environmental conditions.

The pigtails are designed with \emptyset 0.9 mm buffered secondary coating and are made of halogen-free flame-retardant (HFFR) material giving excellent protection.
