

# Handheld Air Blown Fiber Blowing Machine

Fiber blowing machine for cable 0.8 - 3mm and ducts from 3 - 8mm

---

## Features

- Battery operated motor
- Fiber security by mechanical clutch and adjustable clamping force
- Forward and reverse
- Drive wheel with rubber rings secure a good and soft grip
- Digital display showing speed and distance
- Max. speed: 150 m/min
- Max pushing force: 30N
- Speed control with constant speed support

## Application

This blowing tool is used for the installation of Air Blown Fibers or Nanocables into Microducts. This tool allows for efficient installation of Hexatronic ABFU and Nanocables in the Hexatronic microduct system.

## Design

Robust handheld battery powered fiber blowing tool optimized for FTTX installation of blown fiber (ABFU) and nano cables, from 0.8 to 3 mm into duct size 3, 5, 7 and 8 mm. The effective fiber security, and adjustable clamping force ensures that all cable designs can be installed effectively and safely. Delivered in strong transport case with batteries, charger and an assortment of cable seals. Ready to blow!

## Product Information

The kit consists of the following standard items:

- TriggAIR machine
- 110/230 Charger for 12 V battery
- 2 pcs 12 V lithium battery with 4 Ah Milwaukee connector
- 10 pcs 1.2 mm cable seals
- 10 pcs 1.8 mm cable seals
- 10 pcs 2.2 mm cable seals

- 10 pcs 2.8 mm cable seals
- Original Jetting Duct cutter
- User manual

## Technical Information

### Technical Notes

**Maximum Pressure:** 16 Bar

**Pushing Force:** Up to 30 N

**Cable Diameter:** 0.8 to 3.0 mm

**Duct Diameter:** 3, 5, 7, 8 mm

**Weight:** Approx 2 kg

**Air connection:** Std 3/8" Cejn 320 Series

**Dimensions:** 460 x 370 x 180 mm (Transport box)
