

Single Sheath Cutter

For Cables and Ducts 6-28 mm

Features

- Compact sheath removal tool
- Perfect for narrow spaces
- For 6-28 mm ducts or cables

Application

A small and handy tool primarily for removing single-sheathed tight protected ducts. The tool is also useful for removing the sheath from most traditional fiber optic cables. The cutting depth can be adjusted from 0 to 2.5 mm.

The tool is used for cables and ducts with a diameter 6-28 mm.

Design

The compact design of this tool makes it especially suitable to use in narrow spaces where there is no room for a bigger tool.
