

# Heat Shrink End Caps

**End Caps for Cables and Microducts** 

### Features

- Compatible with most common cables and microducts
- Hot melt adhesive lining provides seal on irregular cable sheaths
- Excellent resistance to weathering, moisture, contamination and adverse environmental conditions
- Various dimensions for all common microduct assemblies and fiber optic cables

# Application

The end caps are used for heavy duty protection and tightening of microducts, microduct assemblies as well as cables. They are used when a safe and permanent sealing is required.

# Design

Polyolefin, heath shrinkable

# **Product Information**

Available in versions from 4 mm to 68 mm diameter (after shrinking)

# **Technical Information**

 Product Color
 Black
