

Lubricant for Cable Installation

The Hexatronic Viper Venom Microduct Lubricant

Features

- Low friction lubricant for micro cable installation
- Standard grade and winter grade versions
- Superior low friction formula
- Water based, non-toxic

Application

Hexatronic Viper Venom is a lubricant for cable installation into microducts. It is especially suitable for micro cable and nano cable installations. The lubricant is non-toxic, easy clean up and non-flammable. This all year lubricant has a freezing point of -15 °C and can therefore be used in wintertime.
