

Fiber Splicing Enclosure

Up to 192 Splices

Features

- In cabinet mounting
- Up to 96 single splices/ 192 ribbon splices
- Up to 96 microducts
- Open, easy installation design

Application

This is a medium sized cabinet for both traditional 5 mm microducts and 7 mm thick walled ducts. The closure is intended for mounting inside an outer protective cabinet or for indoor use.

Design

This cabinet is intended for mounting inside an outer cabinet for outdoor use. The cabinet handles arrangements of microducts and splices and is designed to be very easy to install.

Duct holders for 5 mm and 7 mm microducts are included.
