

# Universal Joint/Quick Joint

**UJ/UQJ 1-192 fibers for 10, 25, 40-ton**

---

## Features

- Heavy duty submarine joint
- UJ/UQJ standard
- Up to 192 fibers
- Hermetically sealed

## Application

UJ/UQJ are technologies developed by the Universal Joint Consortium to facilitate efficient maintenance of installed submarine cable systems. Most of Hexatronic's submarine cables are qualified for this technology and this joint type is the preferred option in many installation projects.

## Design

Hermetically sealed UJ/UQJ submarine joint designed for Hexatronic 10-, 15, 25-, 40 ton loose tube submarine cables.

## Technical Information

### **Ordering Information**

Several versions of this submarine cable joint are available.  
Please contact Hexatronic for further information.
