

One-Click Cleaner™ Standard

Cleans connectors with a simple single-action cleaning system

Features

- Over 500 cleans per unit
- Different Models for ferrule dimension and connector types
- Dry cleaning method

Design

Cleans faster and more efficiently than traditional methods. Cleans the fiber connector directly on a patch cord or pigtail, at the top of the pen's cork there is a cover to clean the ferrules. Remove the entire cork in order to clean the connector on the back side of an adaptor without having to pull out your ODF or remove the adaptor. Lasts for 500 clicks.
