

# Microduct Assembly 16/10 mm

TWD 16/10 mm 2-7 -way S12

---

## Features

- For direct burial
- 2, 4 or 7 bundled ducts
- 16/10 mm microducts
- Low friction inner surface
- Longitudinal grooves for maximum installation lengths

## Application

The thick walled microduct are designed with an inner low friction surface that enables installation of micro cables or nano cables. The thick wall of the microducts allow for installation directly into the ground without the need for additional protection.

## Design

The duct assemblies are available in several configurations from 1 to 7 microducts. 16/10 mm microducts are optimized for installation of micro cables and nano cables. The microducts have a low-friction inner surface with longitudinal grooves for best blowing performance.

## Product Information

Microducts and outer sheath: HDPE
