

Microduct 10/8 mm

TND 10/8 mm Primary Tube

Features

- For installation in existing ducts
- Extra slim
- 10/8 mm microducts
- Low friction inner surface for maximum installation lengths

Application

The slim, thin walled microducts has an inner low friction surface that enables installation of micro cables or nano cables.

The design makes the microducts especially suitable for installation into narrow existing ducts (pipes) or pipes occupied with cables or other obstacles.

Design

10/8 mm microducts are optimized for installation micro cables or nano cables. The microducts have a low-friction inner surface with longitudinal grooves for best blowing performance.

The microducts comes in different colors for easy identification.
