

Compressor for blowing fibre optic cable

The compressor has been designed to provide an even, continuous flow of air to aid the installation of optical fibre cables within a duct. It is compact and manoeuvrable with an extending handle to facilitate positioning the compressor at the job site.

Features

- Easy access to filters for maintenance
- Protection from moving parts
- Even air flow

Technical Information

Max operation pressure	145 Bar
Min working pressure	10 Bar
Max engine idle speed	2900 rpm
Horse Power	7 HP
Noise Level	89 dB
Engine Type	ROTA Extreme 5GT
Intake Air	510 ltr/min, 19 cfm, 30.5m ³ /hr
Free air delivery	265 ltr/min, 9.36 cfm, 15.9m ³ /hr
Weight	37kg, 81lbs
Dimensions (handle folded)	56cm x 75cm x 48cm (22" x 29.5" x 18.9")
Dimensions (handle open)	56cm x 75cm x 112cm (22" x 29.5" x 44")
