

CoverUp Key - Telecom Cover, Hammer-Up Action Lift Tool

The CoverUp hammer action tool is an ideal solution for lifting stuck covers with embedded dirt around the edges and partial tarmac over the cover edges. The pull hammer direction alleviates the issue of hammering down to loosen debris with the risk of breaking the cover.

Features

- Dual handed hammer-up action - maximum impact
- Accessory Kit of interchangeable tips to suit different cover types
- Accessory Case to keep tool parts together
- Soft grip rubber handles
